

Collagen JS

Introduced 2006

What Is It?

This product contains BioCell Collagen®, a patented, hydrolyzed and denatured low molecular weight collagen. In addition to collagen, BioCell Collagen® provides the combined benefits of hyaluronic acid (HA), depolymerized low molecular weight chondroitin sulfate, glucosamine sulfate and amino acids including lysine, proline and hydroxyproline.*

Uses For Collagen JS

Supports Joint Health: The unique profile of compounds in BioCell Collagen promote cartilage synthesis and enhance synovial fluid, supporting the composition, integrity and motility of joints. In a double blind placebo controlled study involving 16 individuals supplementing with BioCell Collagen for 8 weeks, results indicate statistically significant support for joint function and comfort. In a peak absorption study, serum levels of HA increased gradually and with statistical significance after BioCell Collagen supplementation, emphasizing the potential for this compound to provide important connective tissue support.*

Promotes Skin Health: The components of collagen also support the elasticity and firmness of skin. Furthermore, HA attracts water, promoting hydration and moisture retention within the dermal matrix. Case reports have suggested that BioCell Collagen may help rejuvenate skin and modulate the appearance of fine lines and wrinkles.*

What Is The Source?

† **BioCell Collagen** is a registered trademark of BioCell Technology LLC, Anaheim, California, USA. U.S. Patents 6,025,327; 6,323,319; 6,780,841 and other U.S. and foreign patents pending. It is derived from hydrolyzed chicken sternum collagen, and typically contains 60% hydrolyzed collagen, 20% chondroitin sulfate and 10% hyaluronic acid. Vitamin C (ascorbyl palmitate) is derived from corn dextrose fermentation and palm oil.

Recommendations

Pure Encapsulations recommends 2-4 capsules per day, in divided doses, with 8–10 oz water, with meals.

Are There Any Potential Side Effects Or Precautions?

Rare side effects of glucosamine and chondroitin found in hydrolyzed collagen include nausea, heartburn, diarrhea and constipation, drowsiness, skin reactions, or headache. If pregnant or lactating, consult your physician before taking this product.

Are There Any Potential Drug Interactions?

At this time, there are no known adverse reactions when taken in conjunction with medications.
